

NED UNIVERSITY OF ENGINEERING & TECHNOLOGY

Department of Textile Engineering

Health and Safety Policy

The Textile Engineering Department is committed to fostering a safe and healthy environment for all students, faculty, and staff. We prioritize well-being and strive for continuous improvement in our health and safety performance. A proactive safety approach is essential to supporting our mission.

Core Principles:

- **Prevention:** Proactive hazard identification and risk mitigation are paramount.
- **Compliance:** We adhere to all applicable health and safety regulations.
- **Responsibility:** Health and safety is a shared responsibility.
- **Continuous Improvement:** Regular policy and procedure reviews ensure effectiveness.
- **Open Communication:** A culture encourages incident reporting without reprisal.

Key Commitments:

- **Hazard Control:** Regular inspections identify hazards, and control measures are implemented. Unsafe acts are immediately stopped.
- **Incident Reporting:** All incidents are promptly reported, investigated, and documented. Lessons learned are shared.
- **Emergency Preparedness:** Comprehensive emergency procedures exist for various scenarios, and regular drills are conducted.
- **Equipment Safety:** Regular inspections of all equipment, including connections, are performed. Preventative maintenance ensures safe operation.
- **First Aid:** Adequate facilities and trained personnel are available.
- **Fire Safety:** Firefighting equipment is provided, inspected, and maintained. Fire drills are conducted.
- **Policy Review:** Health and safety policies are reviewed annually or as needed.
- **Committee Oversight:** Health and safety is a standing agenda item at departmental meetings.
- **Training:** All personnel receive comprehensive training on relevant procedures, hazard recognition, emergency response, and safe work practices.

This policy is a framework for our commitment. All department members are expected to adhere to it and contribute to a safe and healthy environment.
