09	Dr. M. Ali	<p>The work reported here is a part (mentioned as Part A) of a larger study on formulation of high electrical conductivity inks for textile printing. Part B of this study is also submitted simultaneously as a separate manuscript.</p> <p>Prof. Haibau Lu is an established scientist in the field of polymeric materials. He has carried out extensive research on Carbon-based materials. Thus, the authors believe that he is an appropriate reviewer for the study reported here https://scholar.google.com/citations?user=h6n4l8wAAAAJ&hl=en</p> <p>Prof. Xiankai Jiang is an active researcher working on novel functional materials including those possessing electrical functionality. His expertise makes him a suitable reviewer for the type of study reported in this manuscript https://www.researchgate.net/scientific-contributions/2020682215_Xiankai_Jiang</p> <p>Dr. Imran's key area of research is applied chemistry. He has the required scientific know-how to review the fundamental dispersion/ink compositions and their characterisation that are reported in our paper.</p>
